

Partner Meeting - Oct 28, 2024

Location & Attendees

- Location: Online via Discord
- Time: 5:00 pm
- Present: Terry, Jaeyong, Kevin, Danny, Daria, Morris, Sam, Sheldon Huang (Partner)

Todo

- Each subteam will give updates to Sheldon on progress (our finished deliverable 2 work) and get feedback.

Notes and Feedback

Question - what should the landing page be when someone first goes to the app? Explore graphs page? Make them create an account / login first? Does the user need an account or not?

- Answer: Both approaches sound reasonable to Sheldon, but the landing page being the “explore graphs” page makes more sense. Login can be an optional button at the top right.

Feedback

- No major feedback from Sheldon after all our demos. Seems like we are on a good track for now.

Next Meeting Details

- Tentatively Monday November 4th at 5pm.
